AVMA LIFE Trust
Senior Group Term Life Insurance Plan

**Designed For AVMA Members And Their Spouses Age 45 And Over**

The AVMA LIFE Trust Senior Term Life Plan was especially designed to help meet the needs of AVMA members at this stage of life, as it is often difficult and expensive to secure the Term Life Insurance you may need at this time in your life.

It is also a fact that as people age they will have a greater chance of developing a serious illness. Adults over the age of 65 are 80% more likely to have four or more chronic conditions than those under age 65.* Should that happen you could use up even the most substantial savings and medical coverage.

That’s why the AVMA LIFE Trust Senior Life Plan includes coverage for Terminal Illness, Chronic Illness and a Permanent Critical Condition. You may receive a cash benefit from your life coverage for qualifying conditions – known as an accelerated benefit – to help provide crucial financial assistance when you and your family may need it most.

The AVMA LIFE Trust Senior Term Life Plan includes “Living Benefits” for Terminal, Chronic or Critical Illness along with a choice of Term Life Insurance Benefits from $25,000 to $100,000. The “Living Benefits” feature helps financially should an insured experience a Terminal Illness, Chronic Illness or a Permanent Critical Illness Condition. If an insured suffers one of these conditions you may receive Accelerated Benefits while alive which would be deducted from the total Death Benefit.

Here is an example of how the accelerated benefits would work:

<table>
<thead>
<tr>
<th>Qualifying Event</th>
<th>$50,000 Death Benefit</th>
<th>$100,000 Death Benefit</th>
<th>% of Death Benefit</th>

*Without Waiver of Premium for disability or other additional benefit provisions.

Underwritten by New York Life Insurance Company (NY, NY 10010) on policy form GMR
It should be noted that there is a maximum benefits acceleration of 75%. An example would be the occurrence of a qualifying event such as Chronic Illness or Permanent Critical condition (25%) followed by a Terminal Illness acceleration (50%). No more than 75% of the Death Benefit may be payable on an accelerated basis. The remaining Death Benefit is paid upon death of the insured. If the death benefit is reduced by payment of an accelerated benefit; premiums due are based on the reduced level of death benefits.
